MAIN CHALLENGES for FINNISH BUSINESS in UKRAINE

CHALLENGE	IMPACT	
REFORMS fulfillment under risk, NBU independence, corporate governance of state owned companies	Investment attractiveness of country overall and industries in particular, uncertainty in UAH exchange rate and fulfillment of state budget	
TAXATION issues: lack of transparency, unclear regulation, low communicability of Tax Authorities	Slow VAT refund, excessive pressure with tax audits, unreasonable penalties based on implication of unclear regulation (especially excise group of taxes)	
PREDICTABILITY of UKRAINIAN REGULATION, LACK of HARMONIZATION of technical regulations with EU standards according to DCFTA, localization law impacting fair competition	Problems with market access in areas like medical goods (especially medical devises), food supplements, chemicals, machinery, unfair competition from local 'grey economy'.	
CONSTRUCTIVENESS and INTERACTION of UKRAINE AUTHORITIES	Weak response to good investment opportunities and high potential projects even based on foreign investments, difficulties for the case mutual agreement / actions of different authorities are required. Lack of incentives for the companies to invest in Ukraine (eg special tariffs for electricity, land tax, etc). 'Red tape'.	
CROSS BORDER MOVE OF GOODS AND SERVICES	Problems of development of bilateral trade, enhance of assortment of the goods on the market and problems with market access	
COVID RELATED STATE ACTIONS	Unclear business restrictions, state aid for partial unemployment and business breaks, travel restrictions (both internal and external), vaccination pace	

UKRAINE BUSINESS CLIMATE – GOOD TO KNOW

- Difficult to promote good business opportunities in environment generating mainly bad news. Actions for promotion of Ukraine are insufficient and inconsistent, that does not exclude very successful business cases
- Pressure to business despite of reforms is strong
 - * Unpredictable changes of the rules and regulations
 - * Unclear models for establishing subsidiaries of foreign companies
 - * Inconsistency in regulation
 - * Weak Judiciary
- Business culture
 - * Communication between business and mid level authorities is poor
 - * Lack of good practice inside of the business
 - * Harmonization of technical regulation with EU go slow

WHY UKRAINE?

- One of the biggest European market by population
- Excellent reputation of Finnish products
- Harmonization of standards and regulations with EU, simplification of cross border move of goods
- Liberalization of currency regime
- Relatively cheap market from investment point of view (option for cowboy investors)
- Well educated and relatively cheap human resources
- Existing niches for business

..and may be most important:

Ukrainians as Nation appreciate European integration, recognize European standards as high level and understand the need to work for reaching this standards

ФІНСЬКА БІЗНЕС ГРУПА в Україні

Фінська Бізнес Група (FBG/ФБГ) — проект, ініційований найбільш відомоми фінськими компаніями, що працюють в Україні.

Мета FBG — сприяти фінському бізнесу в Україні. Налагоджуючи широкий всебічний діалог з українськими органами влади та полегшуючи співпрацю з місцевою діловою спільнотою, FBG сприяє покращенню ділового клімату в країні.

Використовуючи досвід членів FBG, Група виступає платформою для налагодження зв'язків як для членів групи, так і для новачків — фінських компаній, які бажають вийти на український ринок.

FBG запрошує до співпраці будь-які бізнес-організації, які мають зв'язки з Фінляндією!
