

## COMPANY PROFILES

**MaaS Global** is the world's first mobility-as-a-service (MaaS) company with a vision and mission to offer a more attractive alternative to a privately owned car. Its Whim mobility app allows for the consumer to plan, book, and pay for their trips in one mobile app. In practice it means combining several shared mobility options into one seamless whole in everyday mobility. MaaS will revolutionize the way people travel in the coming years and decarbonise transport by bridging freedom of movement and sustainable modes. [whimapp.com](http://whimapp.com)

### SIEMENS

Siemens is a technology company focused on industry, infrastructure, transport, and healthcare. From more resource-efficient factories, resilient supply chains, and smarter buildings and grids, to cleaner and more comfortable transportation as well as advanced healthcare, we create technology with purpose adding real value for customers. By combining the real and the digital worlds, we empower our customers to transform their industries and markets, helping them to transform the everyday for billions of people.

The company has been in Africa for over 160 years igniting a history of innovation and social development. As an integrated technology company, Siemens aims to play a constructive role in Africa's success story. [www.siemens.com](http://www.siemens.com)

**KONE** is a global leader in the elevator and escalator industry, and our job is to make the world's cities better and more sustainable places to live. Our mission is to improve the flow of urban life. Our vision is to create the best People Flow® experience. Our objective is to be a leader in sustainability not only in our own industry, but also beyond. We understand urbanization and help our customers make the best of the world's cities, buildings, and public spaces, helping them achieve their sustainability objectives. We pay special attention to the environmental aspects of our offering and operations and work hard every day with our customers to be the most trusted partner throughout the building life cycle.
