ABOUT THE COMPANY

SAURESTA is a dynamic and client-oriented company with wide experience in manufacturing stainless steel chimneys. The products offered by SAURESTA meet the requirements of the European regular standards and all the products are CE marked.

The company offers a wide assortment of products: double wall chimneys, triple wall chimneys, connective pipes, round and oval cross-section flue systems intended for usage in wet (W) and dry (D) operating conditions.

PRODUCTS

- **Sauna** water tank and accessories.
- **Double-wall** metal chimneys section and fittings with 25 and 50 mm thickness insulation.
- **Triple-wall** metal chimneys section and fittings with 25 mm thickness insulation.

ADVANTAGES

- Delivery time (from order to pick up 10-13 days).
- Reasonable price (20-30% lower price than local price).
- Quality is higher than average.
- Certification: the company has all the necessary certificates and also can translate them in Finnish.
- Qualified specialists with international experience.
- The products are tested in Denmark at ChimneyLab Europe.
- Sauresta is willing to offer their full exclusivity.
