ELECTRICAL AND ELECTRONICS
EXPORTERS' ASSOCIATION

**ELECTRICAL AND ELECTRONICS
EXPORTERS' ASSOCIATION**

Türkiye

Technological Advantages

- Efficient and up to date equipment capacity
- Production flexibility
- Production capacity in international standards
- Strong industrial structure
- Product diversity
- Well trained and experienced work force

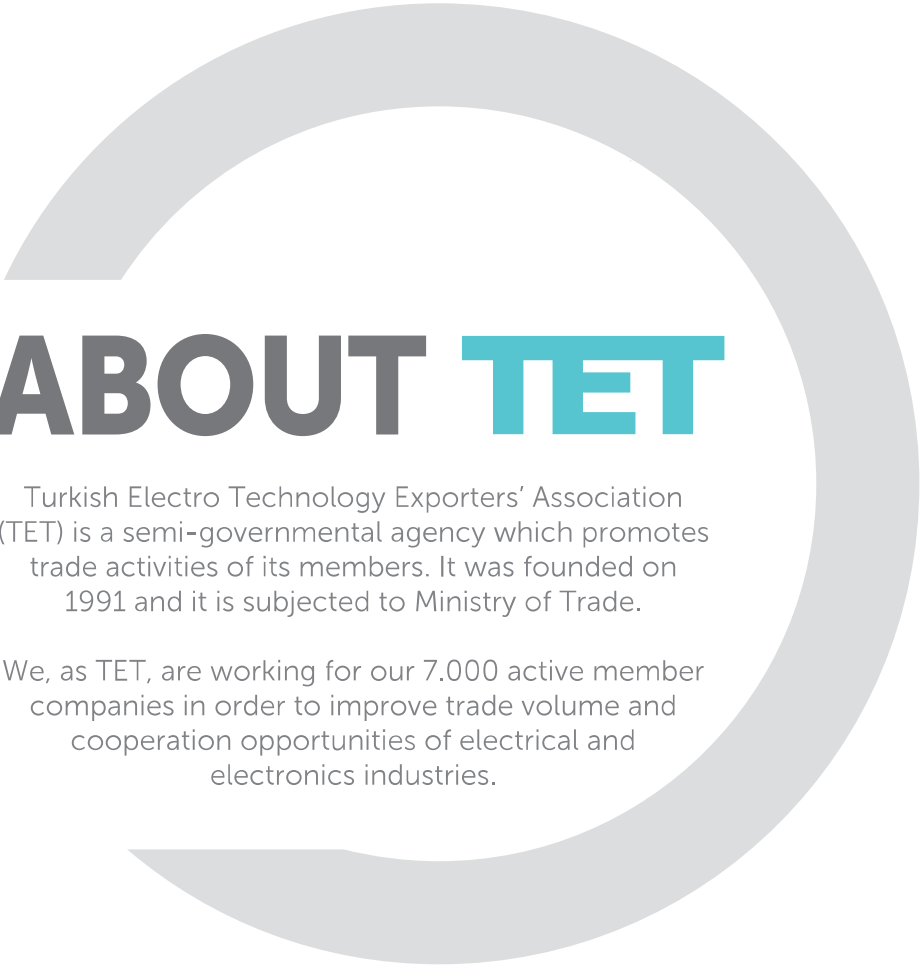

Geographical Advantages

- Short time of delivery
- Neighboring the largest markets in the world
- Largely suitable for both land and marine transportation
- Well developed logistics network

Market Advantages

- An appealing conjuncture for both foreign and domestic capital investments
- EU Customs Union Membership
- Increased competitiveness in international markets
- New employment opportunities
- Start-up friendly legal arrangements
- Increased domestic market demand

ABOUT TET

Turkish Electro Technology Exporters' Association (TET) is a semi-governmental agency which promotes trade activities of its members. It was founded on 1991 and it is subjected to Ministry of Trade.

We, as TET, are working for our 7.000 active member companies in order to improve trade volume and cooperation opportunities of electrical and electronics industries.

ACTIVITIES OF TET

CO-OPERATION

Developing co-operations with international institutions

FAIRS

Organizing and participating in trade fairs

DELEGATIONS

Arranging "Trade Delegations" & Organizing "Buying Missions"

MONITORING & REPORTING

Monitoring and providing sectoral data, reports and market research analysis

Türkiye

BEMİS

ABOUT US

Bemis is a leading manufacturer specializing in the development of high-quality industrial products and material solutions. With a strong commitment to innovation, sustainability, and customer satisfaction, the company delivers reliable, advanced technology solutions tailored to the evolving needs of various industries worldwide.

By focusing on quality and excellence, Bemis continues to build long-term partnerships with its customers, creating sustainable value and maintaining its position as a trusted solution partner in the industry.

PRODUCTS AND SERVICES

- Industrial plugs and sockets
- Cable reels
- Combination switches
- Push buttons
- ABS electrical panels
- EV chargers

BETA ENERJİ VE TEKNOLOJİ A.Ş.

ABOUT US

Beta Enerji is a transformer manufacturer offering oil-immersed transformers, dry type transformers, power transformers, distribution transformers, special transformers, and reactors. The company provides reliable and customized transformer solutions for energy, industrial, infrastructure, and utility projects.

PRODUCTS AND SERVICES

- Oil-Immersed Transformers,
- Dry Type Transformers,
- Power Transformers,
- Distribution Transformers,
- Special Type Transformers,
- Reactors.

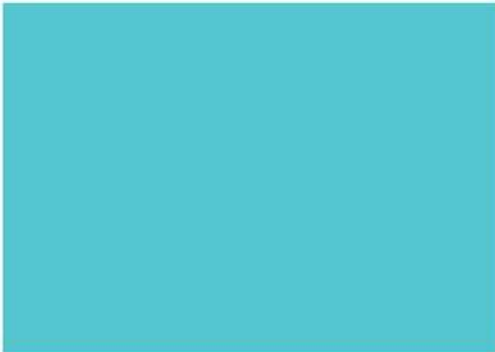

CERTIFICATES

- ISO 9001,
- ISO 14001,
- ISO 45001,
- CE Declaration / CE Certificates.

BORSAN CABLE

ABOUT US

Founded in 1984, Borsan is a Turkey-based industrial company that manufactures copper and aluminum power cables as well as weak current cables at its integrated production facilities in Samsun. Operating under the umbrella of Borsan Group—which is active in various sectors including construction, healthcare, and free zone investments—Borsan stands out as one of Turkey's leading industrial brands with its diversified structure and sustainable growth strategy.

With a portfolio of nearly 10,000 products across 150 product families, Borsan serves a broad customer base both domestically and globally through its strong engineering capabilities, quality-focused production, and flexible solutions. Ranked among Turkey's top 400 industrial enterprises and top 400 exporters, Borsan exports more than half of its production to nearly 100 countries and holds market leadership in over 10 of them. Its international customer portfolio exceeds 350 business partners.

Borsan holds an approved supplier certificate issued by the Ministry of Defence of the Republic of Türkiye and is a proud participant in the TURQUALITY® brand support program, accelerating its global branding journey with a solid corporate infrastructure. The company operates from its management office in Ataşehir, Istanbul, and its integrated 80,000 m² production campus in Samsun, employing approximately 540 people directly.

Through its R&D Center, certified by the Ministry of Industry and Technology of the Republic of Türkiye, Borsan focuses on developing innovative and sustainable solutions tailored to customer needs. R&D investments are concentrated on high value-added product development, advanced technology integration, environmentally conscious production, and continuous enrichment of the product range.

ABOUT US

BVK Technology is a global technology company specializing in smart locking systems, electronic access management, ATM security, cybersecurity, and enterprise security solutions. With nearly 20 years of experience in hardware and software R&D, BVK develops innovative technologies that help organizations strengthen physical security, improve operational efficiency, and accelerate digital transformation.

Headquartered in Türkiye, BVK serves customers in more than 50 countries across banking, cash management, telecommunications, critical infrastructure, transportation, and industrial sectors. Its solutions protect more than 50,000 endpoints worldwide through secure, centralized, and scalable platforms.

BVK is recognized for its advanced electronic locking technologies, intelligent access management platforms, and enterprise security software. Its portfolio includes smart electronic locks, motorized lock controllers, mobile credentials, centralized access management, ATM security solutions, remote monitoring platforms, and enterprise credential management systems designed for mission-critical environments. These technologies enable organizations to reduce operational costs, simplify administration, and strengthen both physical and digital security.

Unlike traditional lock manufacturers, BVK delivers complete end-to-end solutions by combining intelligent hardware, cloud software, mobile applications, and secure authentication technologies within a single ecosystem. Its open architecture enables seamless integration with third-party access control systems, PSIM platforms, ERP solutions, and enterprise management software.

BVK also offers OEM and private-label partnerships, enabling distributors, system integrators, and solution providers to expand their portfolios with proven, high-value security products. Supported by extensive expertise in embedded systems, cloud software, cybersecurity, electronics, and secure communications, BVK delivers reliable, scalable, and future-ready solutions backed by responsive engineering support and customization capabilities.

WEPAN

ABOUT US

CANOZAN LTD was established in 1986 in İZMİR / TURKEY in aim of production of empty enclosure and cabinets and electrical assembling to serve power distribution sector, industrial automation sector , telecom & it sectors

CANOZAN LTD continues its production in 6.000 sqm total factory facility with 5.000 sqm closed area with ERP & MRP system fully computerized system along full automatic self loading station laser , self loading station punch , fully automatic panel bender (PBB) ,full automatic conveyor system painting line (renewed painting robotic system) ,robotic welding

The innovative product development is continously on move from R&D department with a young and experienced employee where the aim is to give service with high technology product groups

PRODUCTS AND SERVICES

- Terminal Boxes
- Wall Mounted Enclosures
- Floorstanding Cabinets
- Outdoor Cabinets
- Rack Cabinet
- Stainless Steel Enclosures & Cabinets
- Control Consoles

GENPOWER GENERATOR

ABOUT US

Genpower Generator, which started its activities in Ankara OSB in 2001, has been providing service to meet all energy needs since its establishment. It continues to offer the most reliable form of uninterrupted energy to its solution partners for 25 years through its state-of-the-art products. Genpower Generator has a wide import network of up to 120 countries with a 100% domestic and national production approach. Moreover, it has the feature of being the "world's largest generator factory" with its factory built on a 216,000 m² land and with a 60,000 m² closed area. It is one of the leading manufacturers in Turkey and the world, with its state-of-the-art production system and a generator production capacity of 60,000 units/year in its current factory environment. Genpower employs cutting-edge technology to produce a wide range of diesel and gasoline generators from 1 kVA to 3300 kVA along with welding generators, light tower generators, water pump generators, alternators, and synchronized systems, all characterized by efficiency and cost-effectiveness. Genpower Generator's widespread recognition, both domestically and globally, underscores its commitment to innovation and excellence in addressing power needs.

PRODUCTS AND SERVICES

From 1 kVA to 3300 kVA;

- Diesel Generators
- Gas Generators (Natural Gas, Biogas, LPG)
- Portable Generators (Diesel & Gasoline)
- Light Towers
- Welding Generators (Diesel & Gasoline)
- Water Pumps

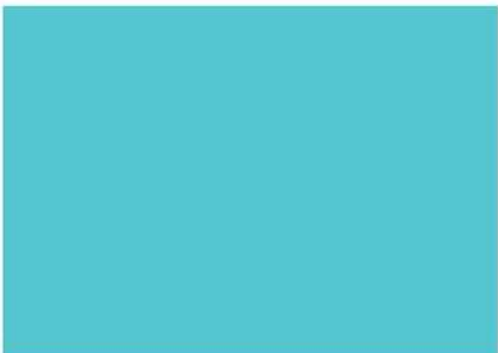

CERTIFICATES

- EC Declaration Of Conformity
- Manufacturing Qualification Certificate
- ISO 9001-2015

EMAS ELECTRIC

ABOUT US

EMAS has been at electro-technics market for over 57 years and become a well-known %100 Turkish origin manufacturer&exporter company

We already have an export to more than 82 countries all around the world.

With our fast growth, EMAS has founded Subsidiary company to ENGLAND U.K. (Stafford) in 2015. EMAS expands Export Network day by day, with the aim of exporting to all countries in the world.

We do provide solutions for panel builders & machine producers with our wide range of electromechanical & electrotechnical products.

PRODUCTS AND SERVICES

- Push Buttons & Control Units
- Indicator Lights & Pilot Lamps
- Industrial Connectors
- Relays & Contactors
- Proximity Switches & Sensors
- Limit Switches
- Cam Switches
- Thermostats
- Cable Carriers
- Signal Devices & Beacons
- Lift & Elevator Components

ENTES ELEKTRONİK A.Ş.

ABOUT US

ENTES is a leading technology company specializing in energy efficiency, power quality, and energy management solutions since 1980. With more than four decades of experience, ENTES designs and manufactures a wide range of products including power factor controller relays, network analyzers, energy meters, protection relays, current transformers, and energy management systems. Operating in more than 107 countries with offices in Germany, Greece, and India, ENTES has become a globally recognized brand. Supported by its accredited Research and Development Center and modern manufacturing facilities in Türkiye, the company is committed to delivering innovative, reliable, and high-quality solutions that help customers improve energy performance and ensure the safe operation of electrical systems.

PRODUCTS AND SERVICES

- Power Quality and Energy (Network Analyzers, Energymeters)
- Electrical Measurement (Multimeters, Ammeters, Voltmeters etc.)
- Power Factor Correction (PFC Relays, SVC, SVG and AHF, Capacitors, Contactors, Harmonic Filters,
- Shunt Reactors, Current Transformers etc.)
- Energy Management Software
- Protection & Control (Time Relays, Astronomic Time Relays Protection Relays, Liquid Level Controllers,
- Earth Leakage Relays and CTs, Power Supplies, Control Transformers etc.)

EPC ENERGY

ABOUT US

EPC Energy was established in 2006 by Ertugrul Sozmen, co-founder of Turkey's first Power Electronics Company established in 1977, together with experienced executives and engineers from this company.

EPC Energy has been growing rapidly ever since by combining this '50 years of know-how' with new Technologies. This proficiency in development and manufacturing ensures EPC Energy to rank among the top players in the industry.

EPC Energy is the first choice of many businesses from different industries due to its customized, client specific power solutions. We produce the fastest and the most efficient solutions while using the most appropriate products needed by our customers and business partners.

EPC Energy has strong local and international business partnerships. One of our major business partners is ABB. We are the exclusive distributor in Turkey of power protection units; such as, UPSs.

Our priority is to sustain upmost customer satisfaction. EPC Energy will continue to grow by leveraging the accumulated knowledge and experience it has, while continuously adapting to new technologies, to produce efficient and reliable energy systems. And the synergy we create with all our customers will be the locomotive for our enthusiasm to achieve our goals.

PRODUCTS AND SERVICES

- Industrial Type Ups
- Rectifier
- Static Transfer Switch
- Frequency Converter
- Bidirectional Converter
- Inverter
- Static / Servo Stabilizer

EUROMEK ELECTRIC

ABOUT US

Euromek Electric is a specialized manufacturer of oil-immersed medium and high voltage instrument transformers for power transmission and distribution systems. The company focuses exclusively on the design and production of current and voltage transformers, serving utilities, EPC contractors, and industrial projects.

With strong engineering expertise and a quality-oriented manufacturing approach, Euromek Electric produces equipment in compliance with IEC/IEEE standards and customer-specific technical requirements. The company offers reliable and accurate measurement solutions for both protection and metering applications.

Thanks to its flexible production capability and experienced technical team, Euromek Electric supports international projects by providing consistent product quality, technical documentation, and responsive engineering support.

PRODUCTS AND SERVICES

- Oil-Immersed Current Transformers (CT)
- Oil-Immersed Capacitive Voltage Transformers (CVT)
- Oil-Immersed Inductive Voltage Transformers (IVT)
- Design and manufacturing according to IEC/IEEE standards and utility specifications
- Type testing, routine testing, and factory acceptance test (FAT) support
- Technical documentation and after-sales engineering support

FEDERAL ELEKTRİK

ABOUT US

Federal Elektrik is a leading manufacturer of low-voltage electrical protection, control, and distribution equipment, serving international markets with more than 40 years of industrial experience. Established in Türkiye, the company has built a strong global reputation for precision engineering, product reliability, and strict compliance with international standards.

Our product portfolio includes:

- Molded Case Circuit Breakers (MCCB)
- Miniature Circuit Breakers (MCB)
- Residual Current Devices (RCCB & RCBO)
- Contactors, Relays, and Auxiliary Components
- Surge Protection Devices (SPD)
- Various low-voltage protection and control elements
- Distribution Boards and Modular Enclosures

Federal Elektrik with more than 600 employees, operates with an advanced production infrastructure and a robust quality management system, supported by internationally recognized certifications such as CE, IEC, ISO 9001, ISO 14001. Moreover, Federal Elektrik products have type tests issued by an accredited laboratory.

Federal Elektrik exports more than 82 countries in the world and continues to expand its markets worldwide.

Thanks to these strengths; Federal Elektrik is also approved by more than 32 countries' government utilities.

ABOUT US

We began our journey in 1998 with the aim of integrating engineering with art, industry with nature, factories with the environment, and technology with life. Our founding purpose was to understand, develop, and guide motion, drawing inspiration from its nature to bring it under control. Today, we continue this journey with great enthusiasm, supported by our team of 110 professionals, 40 of whom are engineers.

At HKTM, we develop advanced robotic solutions for factory automation and high-performance hydraulic systems for heavy industry. As a Certified Excellence Partner of Bosch Rexroth, we represent leading brands in the sector and provide rapid support to our customers through our stocked products. Since 2018, our R&D center has been developing innovative products and projects that shape the technologies of the future.

Since 2023, we have been bringing together the expertise of firms specialized in motion and control technologies under the Good Engineering League to deliver versatile engineering solutions.

With our 10 group companies, we provide innovative services across a wide range of areas, from industrial automation to robotic systems, software solutions based on data engineering to electric vehicle charging technologies, and from underwater robots to shaping steel.

We continue our path with determination, producing innovative engineering and technological solutions and creating value.

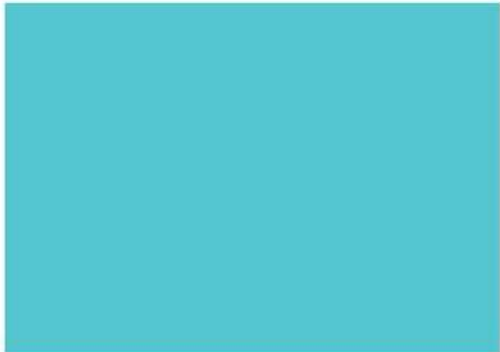

PRODUCTS AND SERVICES

- Hydraulic Power Units,
- Hydraulic Rotary Actuator,
- Hydraulic Cylinder,
- Valve Stands,
- Valve Control Blocks,
- Special Hydraulic Presses,
- Filtration and Circulation Groups,
- Robotics and Automation Systems,
- Plastic Injection Robots
- Transfer Systems,
- Delta Robot,

ILK-EL ELECTRIC LTD. CO.

ABOUT US

Founded in 1974, ILK-EL ELECTRIC Ltd. Co. is a Schneider Electric Solution Partner and certified Prisma panel builder. Operating from our 3500 m² facility in Istanbul, we deliver fast, efficient, and high-quality solutions tailored to diverse sectors such as industrial plants, business centers, hotels, sports complexes, and construction sites.

With over 50 years of experience, we specialize in modular panel systems designed for flexibility, ease of assembly, and cost-efficiency. Our production integrates advanced technology, offering a wide range of accessories and coating options to meet specific client needs.

We are committed to excellence in every stage of manufacturing, maintaining strict health and safety standards and ensuring full compliance with current legislation. Our dedication to quality has earned us recognition both domestically and internationally.

At ILK-EL, innovation drives our growth. We continuously monitor emerging technologies and invest in research and development, supported by a team of experts. This forward-thinking approach allows us to offer competitive pricing without compromising on quality or delivery timelines.

Experience the ILK-EL advantage—where expertise meets innovation, and every project is powered with precision and care.

PRODUCTS AND SERVICES

- Certified Designer & Manufacturer of Low Voltage Switchboards
- Approved Supplier of Outdoor Cabinets for Telecom infrastructure
- Customized Kiosks, Vending Machine
- Turn-key solution provider for MCC, PLC, and SCADA systems
- Brands: PrismaSeT, BlokSeT, Socomec, Phoenix Contact, Klemmsan

OLİPTEK TEKNOLOJİ A.Ş

ABOUT US

Our company has been continuing its production activities under the Oliptek brand since 2008. From day one, Oliptek has focused on customer satisfaction, developing innovative products and solutions that respond to customer needs while meeting the highest quality standards.

Oliptek manufactures media façade systems, wireless automation systems, parking guidance systems, and IoT control equipment, delivering products that add value to both society and the environment by adhering to sustainability principles.

With its strong R&D structure and dynamic production capacity, Oliptek continuously improves its products and processes, closely follows emerging technologies, and offers the latest developments in the sector to its customers.

With hundreds of products and completed projects, Oliptek is expanding its presence in international markets, transferring the success it has achieved in Turkey's lighting and automation sectors to global markets.

By adopting the principles of continuous development and innovation, Oliptek delivers value-added products and solutions to its customers, aiming to ensure sustainability and compete at a global level by prioritizing customer satisfaction and quality.

PRODUCTS AND SERVICES

- Wireless Emergency Lighting Automation Systems (LoRaWAN-based control systems)
- Wireless Smart City Lighting Control Systems
- Smart City Lighting Controllers (NEMA / Zhaga-compatible nodes)
- DMX Lighting Control Systems and Components (controllers, decoders, repeaters)
- IoT Smart City & Industry Devices

PAMİR LIGHTING

ABOUT US

Founded in 1974, Pamir Lighting is a leading Turkish manufacturer of architectural and technical lighting solutions with over 50 years of deep-rooted industry experience. Operating with an advanced production infrastructure, we design and manufacture high-performance indoor and outdoor lighting fixtures for commercial, educational, healthcare, retail, office, and industrial projects.

With a strong commitment to innovation, energy efficiency, and sustainability, Pamir Lighting exports its premium products to more than 50 countries worldwide. Driven by an experienced R&D team and strict quality management, we excel not only in standard product lines but also in providing customized project solutions, tailored engineering, and sophisticated lighting design to meet specific global standards.

PRODUCTS AND SERVICES

- Architectural & Technical Lighting: Custom-made and high-efficiency indoor lighting fixtures.
- Linear & Modular Systems: Advanced linear lighting systems, pendant, surface-mounted, and recessed luminaires.
- Segment-Specific Solutions: Customized lighting for offices, retail, hospitality, industrial zones, and educational institutions.
- Specialized Technologies: Emergency lighting systems, advanced LED technologies, and acoustic lighting solutions.
- Engineering & Project Support: End-to-end project-based lighting design, manufacturing and comprehensive technical support.

SAHRA KABLO

ABOUT US

Since 1968, Sahra Kablo has been a trusted partner in the global energy sector, manufacturing high-quality aluminium cables and conductors for power distribution and transmission projects in more than 35 countries worldwide.

With a dynamic and agile approach, we provide flexible and tailor-made solutions to meet our partners' specific requirements.

Our Product Range;

- Aluminium Underground Power Cables (VDE-certified NAYY)
- Aluminium Overhead Cables (Aerial Bundled Cables – ABC)
- Aluminium PUR and Rubber Sheathed Cables
- Aluminium Flexible Cables
- Custom-Designed Aluminium Cable Solutions

Sahra Kablo has the engineering expertise and manufacturing capability to design and supply PUR or rubber sheathed aluminium flexible cables for a wide range of demanding applications, including:

- Aluminium Mining and Tunnelling Cables
- Aluminium Temporary Power Supply Cables
- Aluminium Reeling Cables
- Aluminium Festoon Cables
- Aluminium Welding Cables
- Aluminium Crane Cables
- Aluminium Onshore Power Supply Cables

"Lightweight Cable Solutions for Heavy Industries Operating in Extreme Conditions."

Distribution & Transmission Utility Products;

- Aluminium Underground Power Cables (VDE-certified NAYY, NAYCY, NAYCWY)
- Aluminium Aerial Bundled Cables (ABC)
- Aluminium Overhead Conductors (AAC, ACSR, AAAC, AACSR, ACAR)

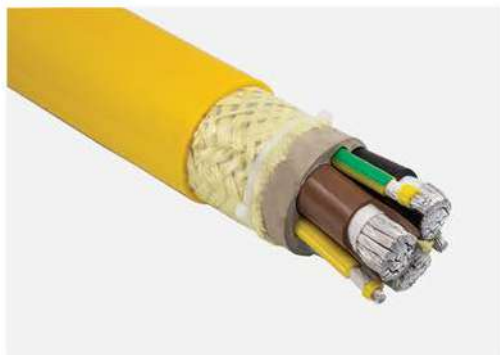

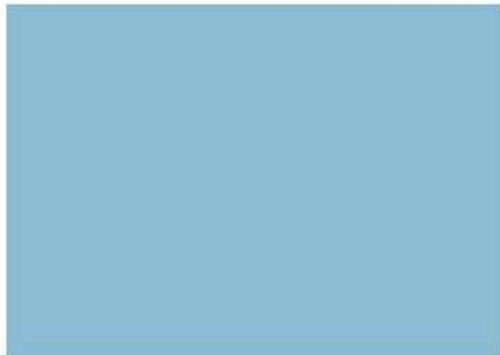

Aluminium Flexible Cable Solutions;

- Aluminium Extension Cables & Power Cords
- Aluminium Temporary Power Supply Cables
- Aluminium Mining & Tunnelling Cables
- Aluminium Marine Cables
- Aluminium Grounding & Earthing Cables
- Aluminium Railway & Wind Turbine Cables
- Aluminium Custom-Designed Aluminium Flexible Cables

Sahra Kablo specializes in lightweight, cost-effective aluminium cable solutions for utility, industrial, mining, marine, and infrastructure applications worldwide.

Termination and Connection Cable
Especially Suitable For Heavy-Duty Applications

TEMKA

ABOUT US

Since 1998, Temka Kablo has specialised in the design and manufacture of high-quality cables from our facility in İstanbul, Türkiye. Our continuous investment in process automation enables us to serve both domestic and international distributors, and contractors with reliable, compliant products delivered on schedule.

By putting quality in the center, we enhance our product portfolio and track day by day. We will continue manufacturing coaxial cables, signal and control cables, telecommunication cables, data transmission cables, flexible control cables, fire resistant control cables, instrumentation cables and many special cables.

TEMKA CABLE has taken this qualification as a basic principle and has documented this principle with TSE-TSEK, ISO 9001: 2015, ISO 14001:2015, CE certificate etc. quality documents.

PRODUCTS AND SERVICES

- Coaxial Cable
- CCTV Camera Cables
- Signal and Control Cables
- Fire Alarm Cables
- Fire resistant Cables

UĞUR TÜRKYURT

ABOUT US

Uğur Türkyurt A.Ş. is an engineering, design, and manufacturing company specializing in the development, production, and supply of high-voltage transmission line hardware and silicone composite insulators for the power transmission and distribution industry, serving voltage levels from 11 kV up to 1000 kV.

PRODUCTS AND SERVICES

We manufacture transmission line hardware fittings and silicone composite insulators for high-voltage power transmission lines from 11 kV to 1000 kV. As a certified manufacturer, we provide design, production, and sales services in accordance with international standards.

- 1-OHTL Hardware Fittings
- 2-Substation Line Hardware fittings
- 3-Silicone Composite Insulator
- 4-OPGW and EW Hardware Fittings
- 5-Stockbridge Dampers

ÜNTEL KABLO

ABOUT US

ÜNTEL KABLO, one of leading cable manufacturers in the world was established in 1972, Product range consists over 24.000 different types of cables, covers both rubber and thermoplastic cables up to Medium Voltage (MV) range. ÜNTEL is also able to produce tailor made products for special purposes. Today these products are exported over 100 countries on six continents. Üntel's laboratories which are approved by organisations that specify the standards are equipped with advanced technology test and measurement devices. Within the scope of Quality System Certificates there is a quality management system presents in Üntel according to ISO, IQnet and TSE quality standarts.. Around 300 different types of cables are certified by global organisations like VDE, KEMA, ABS, UL, BV, DNV-GL, RINA and TSE.

PRODUCTS AND SERVICES

ÜNTEL's power and instrumentation cables supplies energy for industries which requires experience like marine, offshore, mines and tunnels, airports, railways and have been used in industrial ways such as heavy-duty rubber drum reeling cables, welding cables, control cables and fire resistant cables. ÜNTEL is also able to produce tailor made products for special purposes.
